

Our Vision

At Knightsfield School, our vision is to create an inclusive, language-rich environment where every deaf child is empowered to achieve their full potential, feel a strong sense of belonging and communicate confidently in a world of possibilities.

Guided by our ABC ethos, we are committed to high expectations, specialist deaf education and nurturing individual strengths. We work in partnership with families and professionals to ensure every pupil thrives academically, socially and emotionally, developing the confidence, independence and resilience to succeed beyond Knightsfield.

Achieve

We empower our students to achieve their educational goals through aspiration and broad, unique learning opportunities. We deliver a diverse and inclusive curriculum that enables every learner to progress, succeed and reach their full potential.

Believe

We support and nurture our students' wellbeing, enabling them to believe in themselves, feel secure in their own identity and embrace difference. We foster confidence, resilience and self-worth, encouraging pupils to be positive role models for others.

Communicate

We encourage our students to develop the skills to communicate effectively and confidently, enabling them to become happy, independent and successful citizens in both the deaf and hearing world.
